TECHNICAL STACK

- **Languages:** Python (Django, DRF), JavaScript (ES6+), SQL.
- **Tools & DevOps:** Git, Linux (Ubuntu), Vercel, PythonAnywhere, Neon (PostgreSQL).
- **Core Skills:** REST API Integration, SMTP/TLS Security, Database Schema Design, OTP Authentication Logic.

EXPERIENCE

Industrial Training (IT): Web Development *Katsina State Directorate of ICT (KATDICT) | 2024*

- **Web Development:** Learned the fundamentals of building web applications and practiced writing backend logic.
- **Linux Operations:** Gained hands-on experience using Ubuntu Linux and managing basic server tasks.
- **Network Basics:** Practiced troubleshooting office network connections and learning about secure data transfer.
- **Security Essentials:** Studied how to secure email servers (SMTP) and protect web traffic.
- **Result:** Successfully completed the training and earned a **Certificate in Web Development**.

PROJECTS

Bin Datasub | Full-Stack VTU & Fintech Platform

- Engineered an automated vending system for airtime and data using **Django** and **PostgreSQL**.
- **The Hard Part:** Integrated **SMEPlug** and **VTPass** REST APIs to handle real-time service delivery.
- **Security:** Developed a secure wallet system and a custom **OTP verification flow** using Gmail

SMTP with App Passwords to ensure account integrity.

- **Deployment:** Configured environment variables and managed deployment on **Vercel** with **Neon** database scaling.

Blood Bank Management System

- Designed a relational database schema to manage donor records, inventory expiration, and hospital demand.
- **Logic:** Wrote complex **Django ORM** filters to match donors with urgent blood requests instantly based on location and blood type.
- **Authentication:** Implemented Role-Based Access Control (RBAC) to secure administrative and hospital-level data.

Tailoring Management System

- Replaced manual measurement tracking with a digital database solution, focusing on data integrity.
- Used **Django MVT architecture** to ensure seamless customer state management across measurement sessions.

CERTIFICATIONS

- **Cisco Networking Academy:** Introduction to Cybersecurity
- **Cisco Networking Academy:** Networking Essentials
- **Professional Certificate in Web Development:** KATDICT (2024)

EDUCATION

National Innovation Diploma (NID): Computer Software Engineering

- Katsina State Institute of Technology and Management (KSITM) | 2023 – 2026
